HUNGARIAN SCRAP METAL COLLECTION MONTH

Acting on the proposal of the DISZ (Dolgozo Ifjusag Szovetsege, League of Working Youth), the Council of Ministers has proclaimed 1 April - 30 April 1953 scrap collection month.

The collection of scrap metal must be organized in every shop, state farm, machine station, producers' cooperative, apartment house, city, and town. Assisted by trade unions and other mass organizations, the plants and apartment houses must initiate a general clean-up drive to locate and collect scrap metal, which must be turned over to the authorized collecting enterprises.

Enterprise directors are responsible for the organization and success of the scrap metal delivery drive in their plants.

City and town councils must help the cooperatives and the collecting enterprises by encouraging wide participation of the populace.

The Council of Ministers calls upon young workers, apprentices, peasant youths, students, and pioneers to promote the success of the drive by their active participation.
